## Graduate Programs

The master of arts degree in music is designed to benefit those teaching any phase of music, either privately or in the public schools. The master of music degree is designed to benefit the individual performer. It is structured in a manner that will allow the student desiring a performance career to concentrate on those performance and academic disciplines necessary for proper depth and background in the field.

## Music Ensembles

| Ensemble               | Semester Hours | Lecture Hours | Lab Hours |
|------------------------|----------------|---------------|-----------|

Ensemble participation may be elected by qualified students from any department.

Not more than eight hours of music ensemble credit may be applied on any degree offered by this University, except that one fall semester marching band credit may be substituted for the one elective sports and exercise sciences activity course, thus making nine hours of ensemble apply toward degree requirements.

## Ensemble Requirement

Each semester the music major is enrolled in nine semester hours or more (four semester hours in a summer session), the student must enroll in a major ensemble.

## Applied Music

Private study of piano, voice, organ, string, brass, woodwind, percussion instruments, composition and conducting is available to all students of the University on both beginning and advanced levels of instruction. The fee is \$30 per semester (for one credit hour) for a half-hour lesson each week or \$60 per semester (for two or three credit hours) for an hour lesson each week. (Exception: The fee for voice lessons for two or three credit hours is \$260 per semester.)

NOTE: Only 80 hours of music (MUSI), music ensemble (MUEN) and applied music (MUAP) courses can be applied to a bachelor's degree in music. All other course work must be taken outside the department. Dance students are limited to 60 hours of dance (DANC) courses.

## University Core Curriculum Requirements

Refer to the "University Core Curriculum" section of this catalog.

NOTE: Music majors cannot receive core credit for MUSI 1306.

## Department Requirements

### Transfer Students and Residents

All secondary piano students (except those majoring in music with elective studies in business) must satisfy the department's fourth-semester piano requirements for secondaries in one of two ways:

1. Students may enroll in MUAP 1069 (one hour) or MUSI 2180 in which the fourth-semester requirements are covered and pass the course with a minimum grade of "C," or
2. The student can play a proficiency exam before at least two members of the piano faculty during which the student will demonstrate satisfactory mastery of fourth-semester skills. Should the student fail the proficiency exam, he or she must enroll in keyboard study at WTAMU for the purpose of developing the necessary skills.
