

West Texas A&M University Goals

- 1. Provide access to quality educational opportunities using traditional delivery, distance learning, and information technology systems, recognizing the importance of liberal studies as a foundation for all careers and for successful participatory citizenship.**
- 2. Sustain and enhance the University's role as a cultural and informational resource for an external community which is becoming increasingly diverse.**
- 3. Enhance the University's service to the region's economic growth through the establishment of stronger ties to agriculture, business and industry.**
- 4. Enhance the University's service to the region's educational and health service needs through innovative approaches to teacher education and health care programs.**
- 5. Enhance the quality of University life by providing access and opportunities that support the personal development needs of a diverse student body.**
- 6. Enhance multi cultural awareness and acceptance through recruitment and retention of minority students, faculty and staff.**
- 7. Enhance University external funding efforts in recognition of the growing necessity of external support for recruitment, development, and retention of high quality students, faculty and staff.**
- 8. Continue to seek to make adequate provision for the improvement of infrastructure needs of the University.**
- 9. Establish and carry our policies governing purchasing and public works contracting that foster meaningful and substantive inclusion of historically underutilized businesses.**
