

Microsoft Windows Live@EDU

for the Apple iPhone OS 2.0

Prerequisites

Before attempting these instructions, ensure that your iPhone is using the latest iPhone 2.x software. You can verify your iPhone software version number by performing the following:

1. Tap “Settings” on your iPhone home screen.
2. Tap “General”.
3. Tap “About”.
4. This page should contain a row starting with the text “Version” and on the right side of this row, the version number. Ensure the number before the parentheses starts with “2.0” (or greater).

If you do not have version 2.0 or greater, you will need to upgrade your device firmware via iTunes 7.7 (or greater) in order to perform these instructions. Visit <http://www.apple.com/iphone/softwareupdate/> for more information.

Instructions

Quit any currently running applications, and go to the iPhone’s home screen.

1. From the iPhone home screen, choose the “Settings” icon

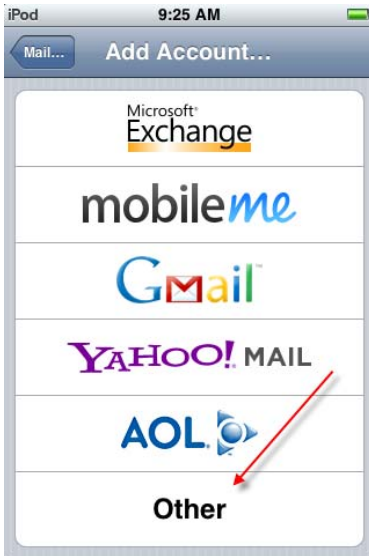

2. Tap “Mail, Contacts, Calendars”

3. Tap "Add Account..."

4. Tap "Other"

5. You are presented with a screen asking for **Email, Username, Password** and **Description**. Fill these out accordingly.

For the username, enter your email address (e.g *name@buffs.wtamu.edu*). The description can be anything meaningful. Tap "Next" in the upper-right corner to verify your account information.

6. After a few moments, you will be prompted to enter a **Server**. Enter “pop3.live.com”. Tap “Next” in the upper-right corner.

7. Tap “Save” in the upper-right corner.

8. Your email account description should be displayed near the top of the screen under “Accounts”

You should now have your Buffs email setup on your device. When you choose the “Mail” icon from the iPhone home screen, you will see any new messages on your phone.
