Project Interests

The purpose of the McNair Scholars Program is to prepare eligible participants for doctoral studies through involvement in research and other scholarly activities. Students engage in independent summer research under the guidance of a faculty member. Eleven students are selected for research and also to participate in summer and academic year seminars related to graduate school admission. Related activities include academic counseling, securing financial assistance for graduate school, GRE preparation, and the opportunity to present their research at professional conferences. The goal is to increase the attainment of Ph.D. degrees by students from underrepresented segments of society.
