Lab classes will have the final exam the last official class meeting date prior to dead day and finals beginning.

Online courses will have a final/project that must be submitted during the time finals are under way and must close submission by 10 pm the last day of finals.

Classes meeting MTWTH at different times on MW vs TTH will have their final with the MW time slot where the start time falls. Example, MATH 0302 meets MW 8:25—9:15 am and TTH 7:55—8:45 am so the final is Monday @ 8 am.

In some cases, students may find minor time overlaps for evening finals. In this instance they should consult with their faculty.

Note to faculty: If you do not see your class day/time listed please contact the Registrar for direction.
