ACCESS CONTROLS**

CONTROL NUMBER	CONTROL NAME	PRIORITY	REVIEW DATE
AC-7	Unsuccessful Logon Attempts	P2	07/02/2017

I. STATEMENT

West Texas A&M (WTAMU) University's information systems must employ account lockouts after no more than 10 failed attempts to login.

II. APPLICABILITY

The intended audience for this control includes, but is not limited to, all information resource data/owners, management personnel, and system administrators.

III. IMPLEMENTATION

Account lockout failed attempt features are activated on all WTAMU systems. Accounts locked out due to incorrect logon attempts require manual intervention to reinstate. Users must submit a service request to reinstate their account.
