NIST CONTROL FAMILY
IDENTIFICATION AND AUTHENTICATION CONTROLS

CONTROL NUMBER	CONTROL NAME	PRIORITY	REVIEW DATE
RA-5	Vulnerability Scanning	P1	07/23/2017

I. STATEMENT

WTAMU periodically scans for vulnerabilities in applications, computer systems and information systems and employs vulnerability scanning tools and techniques that facilitate interoperability among tools and automate parts of the vulnerability management process by using standards for enumerating platforms, software flaws, and improper configurations.

II. APPLICABILITY

This Control applies to all West Texas A&M network information resources. The intended audience for this Control includes all information resource owners, custodians, and users of information resources.

III. IMPLEMENTATION

The University has vulnerability scanning tools in place and operational to satisfy this control.
