NIST CONTROL FAMILY
IDENTIFICATION AND AUTHENTICATION CONTROLS

CONTROL NUMBER	CONTROL NAME	PRIORITY	REVIEW DATE
SI-3	Malicious Code Protection	P1	07/23/2017

I. STATEMENT

WTAMU shall employ malicious code protection mechanisms at information system entry and exit points to detect and eradicate malicious code; updates malicious code protection mechanisms whenever new releases are available in accordance with University configuration management policy and procedures; configures malicious code protection mechanisms to perform periodic scans of the information systems. The code protection shall also take automated actions against any malicious code that is found.

II. APPLICABILITY

This Control applies to all West Texas A&M network information resources. The intended audience for this Control includes all information resource owners, custodians, and users of information resources.

III. IMPLEMENTATION

Malicious code mechanisms conduct periodic system scans for vulnerabilities.
