### 12<sup>th</sup> Class Day Facts

The most commented on data bite from the fall semester is back by popular demand to help you learn about the students in your classroom. This semester we added a twist on the story, providing a breakdown of each of the three additional demographics (gender, Pell grant and racially and ethnically diverse) into first-gen or not first-gen.

Since almost half of WT's undergraduate population is classified as first generation, the Office of Institutional Effectiveness thought that it would be helpful to spotlight them.

To view more data about this semester's students, please visit IE's website:
