### Early Alert Works — Let's Keep It Going!

Faculty and staff at WT play a vital role in student success, and the Early Alert Program is here to support that mission. This proactive, student-centered system connects students to critical academic, personal, and financial resources when they need them most. And here's proof it's making a difference: **65% of students flagged through Early Alert last semester were successfully retained!**

Submitting an Early Alert is quick, simple, and effective. Whether a student is missing assignments, struggling with grades, or facing personal challenges, your referral can help them stay on track. Just click the Early Alert icon in WTCClass or select the student in BuffSuccess and fill out the form- Advising and other SSC departments will take it from there, with follow-up communication, resource referrals, and continuous outreach.

Let's continue working together to support students and boost retention — one Early Alert at a time. #BuffEarlyAlertProgram
