

# Building a Culture of Learning and Improvement

Nathan Lindsay  
Vice Provost—University of Montana  
September 13, 2019

I have a good sense for how my work or teaching is “making a difference” in students’ lives and learning.

1. Strongly agree
2. Agree
3. Neither agree nor disagree
4. Disagree
5. Strongly disagree
6. Not applicable

Our department has the information/data it needs to “tell a compelling story” of how we are contributing to student success.

1. Strongly agree
2. Agree
3. Neither agree nor disagree
4. Disagree
5. Strongly disagree
6. Not applicable

# What we're about...

---

- “Education is not the filling of a pail, but the lighting of a fire.” — William Butler Yates

# Can dogs talk?

---

# What are the benefits of assessment?

---

- Making a difference, and measuring that difference
- Improvement of programs
- Documentation of student learning
- Demonstration of the value/outcomes of certain offerings
- Support for more funding
- Preparation for accreditation

# Four “Big Picture” questions to ask about student learning

---

- How do you define a successful student?
- What have you learned about your students' learning?
- Are you satisfied with the results?
- If not satisfied with the results, what are you going to do about it?

# Initial Assessment Components for Each Academic Degree

---

- Mission statement
- Department Objectives
- Student Learning Outcomes
- Measurements (& Achievement Targets)
- Findings
- Action Plans

# “Closing the Loop” in Assessment

1. Identify outcomes
2. Gather evidence
3. Interpret evidence
4. Implement change
5. Gather evidence again

**The Assessment Cycle**

*From Maki, P. L. (2002). Developing an assessment plan to learn about learning. The Journal of Academic Librarianship.*

# What are Learning Outcomes?

---

Learning outcomes are what *students* are expected to *demonstrate* in terms of **knowledge**, **skills**, and **attitudes** upon completion of a program, course, or activity.

# Levels of Outcomes

---

- Class: Outcomes individual faculty have developed for their class
- Course: Outcomes that are shared across all faculty teaching sections of the same course
- Program: Outcomes that the program has defined for all students graduating in that program

- Format for learning outcomes:

Students **will be able to**

<<action verb>>

<<something>>

# Developing Learning Outcomes

---

- Remember: *SMART*
  - **Specific**—Clear and definite terms describing the abilities, knowledge, values, attitudes, and performance
  - **Measurable/Observable**—It is feasible to get data: data are accurate and reliable; it can be assessed in more than one way
  - **Attainable**—The outcome stretches students without overwhelming them
  - **Relevant/Results-Oriented**—It describes what standards are expected from students
  - **Time-bound**—It describes a specified time period for accomplishing the outcome

**COMPREHENSION**

**ANALYSIS**

**EVALUATION**

**KNOWLEDGE**

**APPLICATION**

**SYNTHESIS**

|                  |                      |                    |                      |                  |                  |

# Part II:

# Enhancing Curriculum Mapping

---

## *Definition*

- A method for aligning a program's learning outcomes and courses

## *A Curriculum Map answers the question:*

- Where are what learning outcomes taught in your curriculum?

## *Benefits*

- Proactive approach to improving learning outcomes
- Encourages reflective practice as instructors
- Clarifies priorities when there are limited resources
- Enhances coherence by revealing gaps in the curriculum
- Improves communication among faculty
- Supports “major maps” for students
- Refines the assessment plan

# Program Level Student Learning Outcomes

|          | 1xx | 1xx | 2xx | 2xx | 2xx | 3xx | 3xx | 3xx | 4xx | Capstone |
|----------|-----|-----|-----|-----|-----|-----|-----|-----|-----|----------|
| <b>1</b> | K   |     | A   |     | A   |     |     | A   | A   | S        |
| <b>2</b> |     | K   | A   | S   |     |     |     |     |     |          |
| <b>3</b> | K   |     |     |     |     | K   |     | K   | K   |          |

| <b>5</b> | K   |     |     |     |     |     |     |     |     | S        |
| <b>6</b> |     | K   |     |     | K   | A   |     | A   | S   |          |
| <b>7</b> |     | S   |     |     | A   | A   |     |     | S   |          |

**K= Knowledge/Comprehension; A= Application / Analysis; S= Synthesis /Evaluation**

# A curriculum map how-to

---

## Begin by collecting the primary ingredients

- Program's intended learning outcomes
- Recommended and required courses (including Gen Ed courses, if desired)
- Any other required events /experiences (e.g., internships, department symposiums, advising sessions, and perhaps even national licensure exams)

# Curriculum Mapping Best Practices

---

- Involve as many faculty as possible in the development and analysis of the curriculum map
- Identify learning opportunities within courses that will produce your program's outcomes
- Connect the dots: communicate expectations from course to course
- Allow each member of your faculty to teach to their strengths

# Curriculum Mapping Best Practices (Cont.)

---

- Eliminate outcomes that are not highly valued, or add those that are missing
- Focus on highly valued outcomes by including them in multiple courses – for some there will be room for overlap
- Set priorities as a department/program
- Communicate: Publish the curriculum map online and distribute to students and faculty (in conjunction with major maps and student learning outcomes)

# Student Involvement in Assessment

- Assessment should not be done behind a curtain
- Make assessment transparent for all students

# Making Assessment Transparent to Students

---

- **Outline the learning outcomes** for your courses and degree, and list in the syllabus and on program website.
- **Explain the connections** between assignments and the learning outcomes.
- **Explain the criteria for evaluating assignments** (using a rubric or scoring guide— search on Google for rubrics in your field).
- Have students use the rubrics, **give feedback on assignments**, and provide opportunities for students to improve their work.

# Letting Students Know You've Heard Their Voice

**We've heard your voice... and taken action.**

**CHANGE #17**

60% of UNCW Students Said they consume 1-2 servings of fruits and vegetables per day.

**We Responded:** Health Promotion provides nutrition programs (e.g., Plate Method Challenge, Smoothies in Sammy's Health Hut) to increase the consumption of fruits and vegetables, and keeps a fresh fruit basket in the office lobby for students to enjoy!

**Thank You**  
for your feedback and time spent taking surveys about your UNCW experience.

ABRONS STUDENT HEALTH CENTER

- Initiative developed by the Office of Student Life Assessment, based on similar program in student affairs at the University of Georgia.
- Communicates assessment findings back to the student body and other constituents.
- Emphasis is placed on demonstrating improvements made due to:
  - response to surveys
  - focus groups
  - other feedback

# Celebrate Good Assessment Results

- Students:
  - departmental showcase or newsletter
  - student research conference
  - Share student work as models for others
- Faculty:
  - Publish scholarship of assessment
  - Share results with students and other stakeholders
- All:
  - Promote a Culture of Learning on Campus

---

## Question:

How can we help our students to be more aware and more involved in the assessment process?

# We have the best jobs in the world
