

Panhandle-Plains Historical Museum and Pioneer Amphitheater

2024 FEASIBILITY STUDY

FEASIBILITY STUDY

For more than 100 years and with a collection of over two million artifacts, the Panhandle-Plains Historical Museum has been the largest history museum in Texas. The project vision is to build a new museum with a state-wide impact. This museum will use its collections to build regional, state, and national partnerships through exchange with other institutions and continue to serve the educational needs for students in over a 25,000-square-mile radius.

As a guardian of Texas culture and ideals, the new facility will boldly serve not only as a repository of history, but act as an open laboratory spurring research and nurturing curiosity from the youngest of minds to scholars of higher education.
