## Degree Total Hours NA

Please note that this is a basic program of 90+ minimum hours for admission to professional schools. Students must select a specific major in order to earn a bachelor's degree (e.g., Biology or Biochemistry).

DISCLAIMER: This curriculum guide should be used in conjunction with the corresponding degree checklist for general planning purposes only. The degree checklist (later a student's official degree plan) should be referred to as the comprehensive list of all courses required for the degree. An official degree plan is required after completing 30 hours. Students should always seek the advice of their academic adviser before scheduling classes.

## **Prerequisites/Important Sequences/Other degree Notes:**

Note 1 - CORE: Pre-Med students are required to take specific courses for Core 20, Core 30, and Core 90; PSYC 2301 or SOCI 1301 are strongly recommended for Core 80. Unless other specific core courses are required by their major, students may select from any available options (see checklist) to satisfy other core requirements. There is no set order in which general core requirements must be taken.

Note 2 - MATH 2413 or 3360: Medical schools require either MATH 2413 or 3360; consult with your adviser on these courses.
