BACHELOR OF SCIENCE REQUIREMENTS Covered by requirements for major.		OPTION		
ELECTIVES: 9-13 HOURS BY ADVISEMENT ◆				
ELECTIVES	9-13			
MINIMUM HOURS REQUIRED TO COMPLETE DEGREE	120			
A NOTE: The same commissions moved total expects 42 hours, exceed hours moved he				

[♦] NOTE: The core curriculum must total exactly 42 hours; excess hours must be moved to the major as an elective or a major requirement and stay within the 120hour requirement or approved total submitted to the Coordinating Board for degree requirements. Some majors specify particular courses to meet core curriculum requirements when options are available.

NOTE I: This option follows course recommendations of the American Chemical Society and prepares students for positions in industry, government and education. It is recommended for students planning to do graduate study in chemistry or seeking employment as chemists in industry.

NOTE II: At least 36 hours of advanced work (3000- or 4000-level courses) for which tuition is paid must be earned at WTAMU. A maximum of six semester hours in religion (RELI) and six semester hours in physical education (PHED) courses can count toward a baccalaureate degree.

NOTE: This is NOT a degree plan. All undergraduate students must request an official degree plan from their academic dean's office by the time they have completed 30 credit hours.

^{*} Indicates prerequisites—see catalog for more information.

^{**} Or an equivalent course (second year, second semester) in a foreign language.
